## About

Founded in Sep 21, 1997 Bunni is a company that brings superior, healthy foods to the lives of millions. Bunni's founders Siamee Yang and Moyu Wang began the Bunni movement with two things in mind, Gluten, and Dairy free products.

For years, they researched which combination of ingredients could replace Gluten and Dairy at zero cost of taste. After many failed attempts on one Saturday evening, they hit the bonanza by accident, when Siamee Yang, Knocked over the secret ingredient on top of Moyu Wang's mix. Both young entrepreneurs were stung at the new discovery. The next day they submitted the list of their top-secret ingredient to the FDA for its stamps of approval. Success has been present under the Bunni's umbrella ever since.

*"Why be Dairy and Gluten free?"*

*"What is the difference?"*

Let the masters behind Bunni Mochi, Siamee and Moyu answer that.

"Without 'Gluten' running free all over your body, you will rid of unhealthy cholesterol which will keep your heart rhythm well balanced and without any hiccups. Furthermore, the ingredients used in the creation of Bunni Mochi, improves your bowel movement, and adds an extra boost to your blood circulation. Bunni Mochi is immensely loaded with iron, vital minerals, and lifesaving amino acids." -Siamee Yang CEO of Bunni Mochi

"The word 'Dairy Free' may seem odd to many people, but the truth is that living a dairy free life style can benefit you in many ways. Dairy Free Living will help you reduce symptoms like, anxiety, nausea, and stress. Once your body rids of those symptoms you will find yourself enjoying better sleeping patterns and increased energy levels. In addition, sodium levels will lower and in many cases your blood pressure will return to normal." -Moyu Wang CEO of Bunni Mochi

## Strawberry

An original Bunni flavor, strawberry is made with the freshest batch from Napa Valley with seeds embedded into the chewy outer surface. The inside is a savory french vanilla with strawberry essence. Only the best goes into our strawberry flavor which keeps it as our number one seller.

buy me

## Mango

Mango ignites the senses with the fresh aroma of mangos from summer red valleys in Carlsbad. Yellow mangos are hand chosen by Bunni flavor gurus, with bits of mango melted into the gooey outerlayer and creamy inner filling. We make people mad for mangoes, take this flavor for a spin.

buy me

## Chocolate

Cocoa beans fresh from the Chilean jungles are imported to create our rich chocolate flavor. Chilean Cocoa beans are part of our strive to promote equality amongst the workers who pick them. You can taste the richness of the jungles in the exotic rich outer shell with a creamy center.

## *Pistachio*

Nutty about pistachio? We've crushed up these peices into the creamy center, and used pistachio essence to create a mellow outer shell. Take a bite and you'll be a nut for our pistachio mochi.

## *Lychee*

Take a flight to the exotic jungles of thailand and delight in the fresh crisp taste as it hits your tongue! Lychee bits melt into your mouth as well as the creamy chewy outer shell. Some people swear they've never come down from this lychee tree.
